Kings Meadow Primary School
Geography Curriculum Aims

At Kings Meadow, geography develops pupils' understanding and appreciation of places and their importance to us, of our impact on them and how we can manage and develop them sustainably.

Our curriculum is brought `alive' for them through investigating and asking questions about the world.

Our geography develops pupils' role as stewards of Planet Earth, at local, national and global scale.

Our curriculum develops pupils' geographical understanding, helps them make sense of the world and prepares them to play an active role as informed, responsible citizens.

Our geography curriculum is a key subject to engage pupils' creative and critical thinking about change, both locally and globally, and the implications for the future.

At Kings Meadow, geography provides pupils with a range of vocabulary to describe the features of the environment and the processes that shape it.
